Dear Birgit

LETTER OF APPRECIATION

THANK YOU most sincerely for your generous investment of knowledge, time, effort, expertise and experience.

We, at Goodwood College regard ourselves very privileged to have had you and the rest of your esteemed company as our guests and even more so as mentors to our learners.

Our learners have found your contributions informative, enriching and extremely motivating .

Each speaker was a testimony of the rewards reaped through hard work and commitment.

You can be assured that they have left an indelible mark on all the learners present.

I think the timing of this session was also perfect. Matric educators are already noticing the difference in attitude of this group in comparison to the group of last year. We trust that it will continue throughout this year and beyond.

We commend you for using your contacts and influence to the benefit and advantage of our learners and College.

Please convey our sincerest appreciation also to all the presenters who availed themselves so readily and unselfishly for this session.

I fully share your wish of crossing paths again in future.

We wish you and all our distinguished guests every success and prosperity possible for all future endeavors.

With much appreciation,

Virginia Africa
